

SDI HVAC

COMPRESSORS BY DEVAIR

- RELIABLE
- SAFE
- EASILY INSTALLED
- ECONOMICAL
- Cast Iron compressor pump
- Splash lubrication
- Unloaded starting
- ASME approved air receivers
- Ball valve air outlet
- Industrial grade motor
- Magnetic starter (optional)

Currently available in two sizes, SDI HVAC compressors are specifically designed to meet the needs of HVAC specialists.

Splash lubricated cast iron pumps are designed for high air delivery at low speeds, reducing wear and downtime.

Factory equipped with optional magnetic starters, ASME standard air receivers and OSHA standard belt guards make these safe and energy efficient units for your HVAC and other small horsepower projects.
